

please allow more independant media ownership for the citizens of the United States. I don't enjoy or feel that I benenefit from listening to Clear Channel owned stations. I enjoy most our locally owned and operated Public Radio Station KPBX here in Spokane, WA. because they cover items not found elsewhere, and do it with style. I don't like too many commercials, so we really need some input into how and who runs our radio stations. Aren't there anti trust laws that we can apply to these large media conglomerates?

Sincerely Your Employer,
